

Hello,
We are The Left Bit!

About

We are a full-service digital product studio creating from Barcelona. Combining research, design & development. We translate your ideas into digital products and experiences.

Your work model is our work model. Our symbiotic collaboration is focused on adapting to your team's workflow to gain core insights and develop the best end-to-end conceptual, code and design solutions.

We create digital products and services that allow our clients to reach their goals.

We solve the following problems:

Big Companies

- ⌚ \$ 40% Savings in Tech Cost.
- ⌚ 20% Time and cost savings in the recruitment highly professional profiles.
- 📶 High Performance: Our ready-to-go team has 10 years experience in large-scale projects.
- ⌚ Big projects are phased in small deliverables, ensuring continued product improvement and immediate feedback from the stakeholders.

SMEs Companies

- 🧠 Access to highly professional developers out of reach SMEs.
- ↗ We help you make key decisions when choosing your tech stack, saving you months of iterations.
- 💻 We help you create and improve digital products that span from software to UX.
- 🚚 Grow your business faster with rapid project delivery.

MLB

The best way to
follow your MLB
team

Description

The official application to follow your favourite teams and players, watch matches through a streaming service and read the last news about the league.

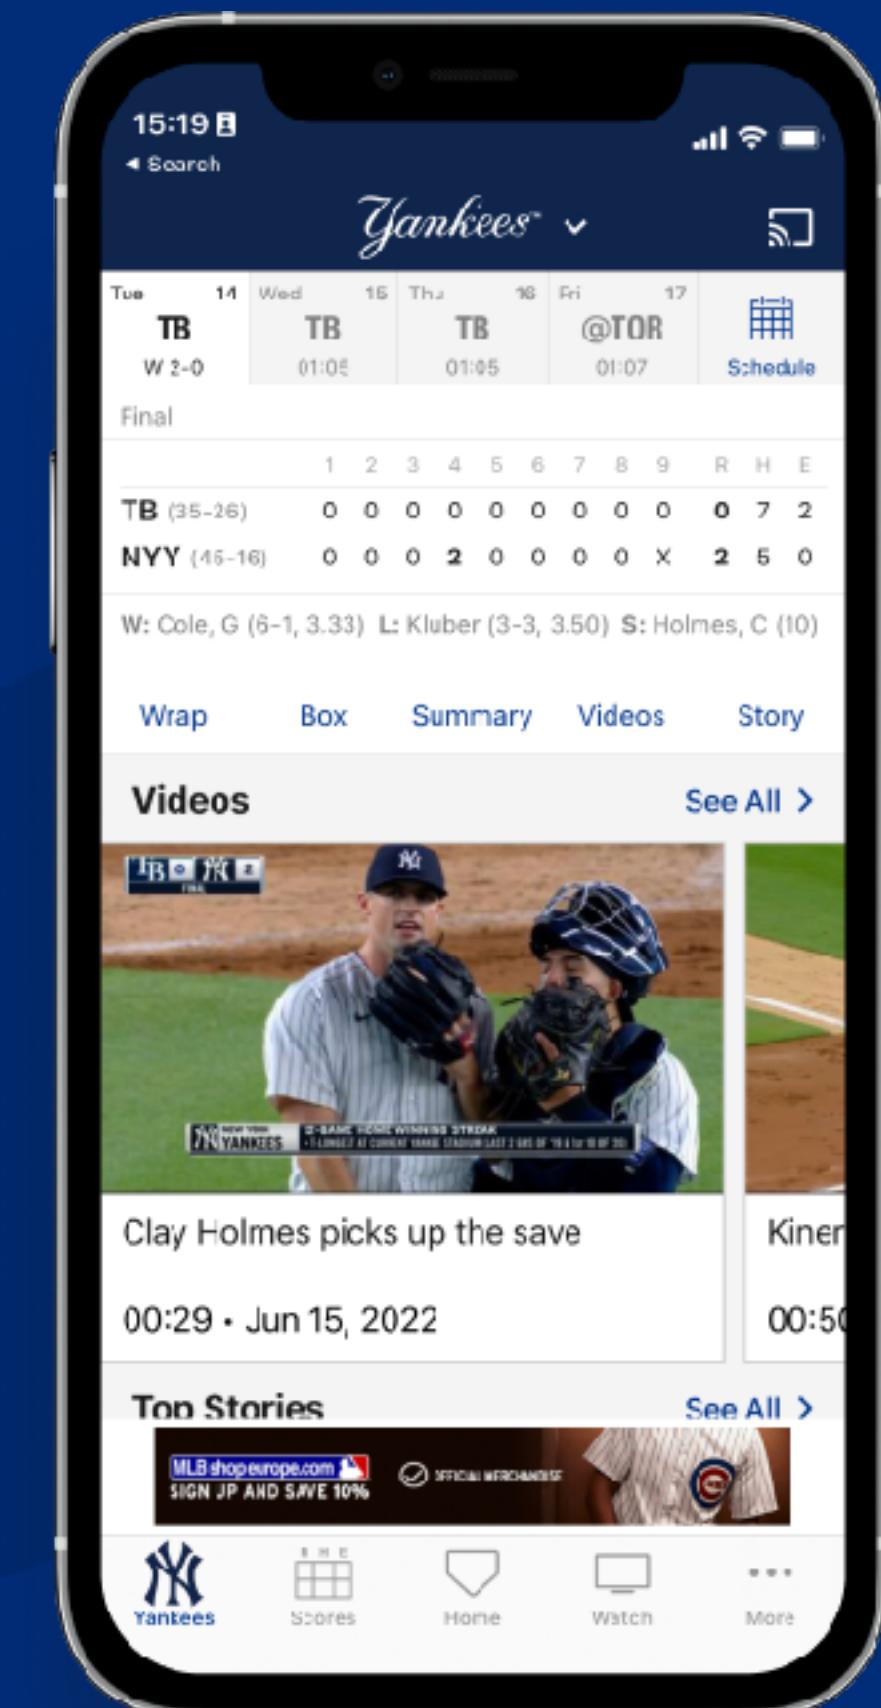

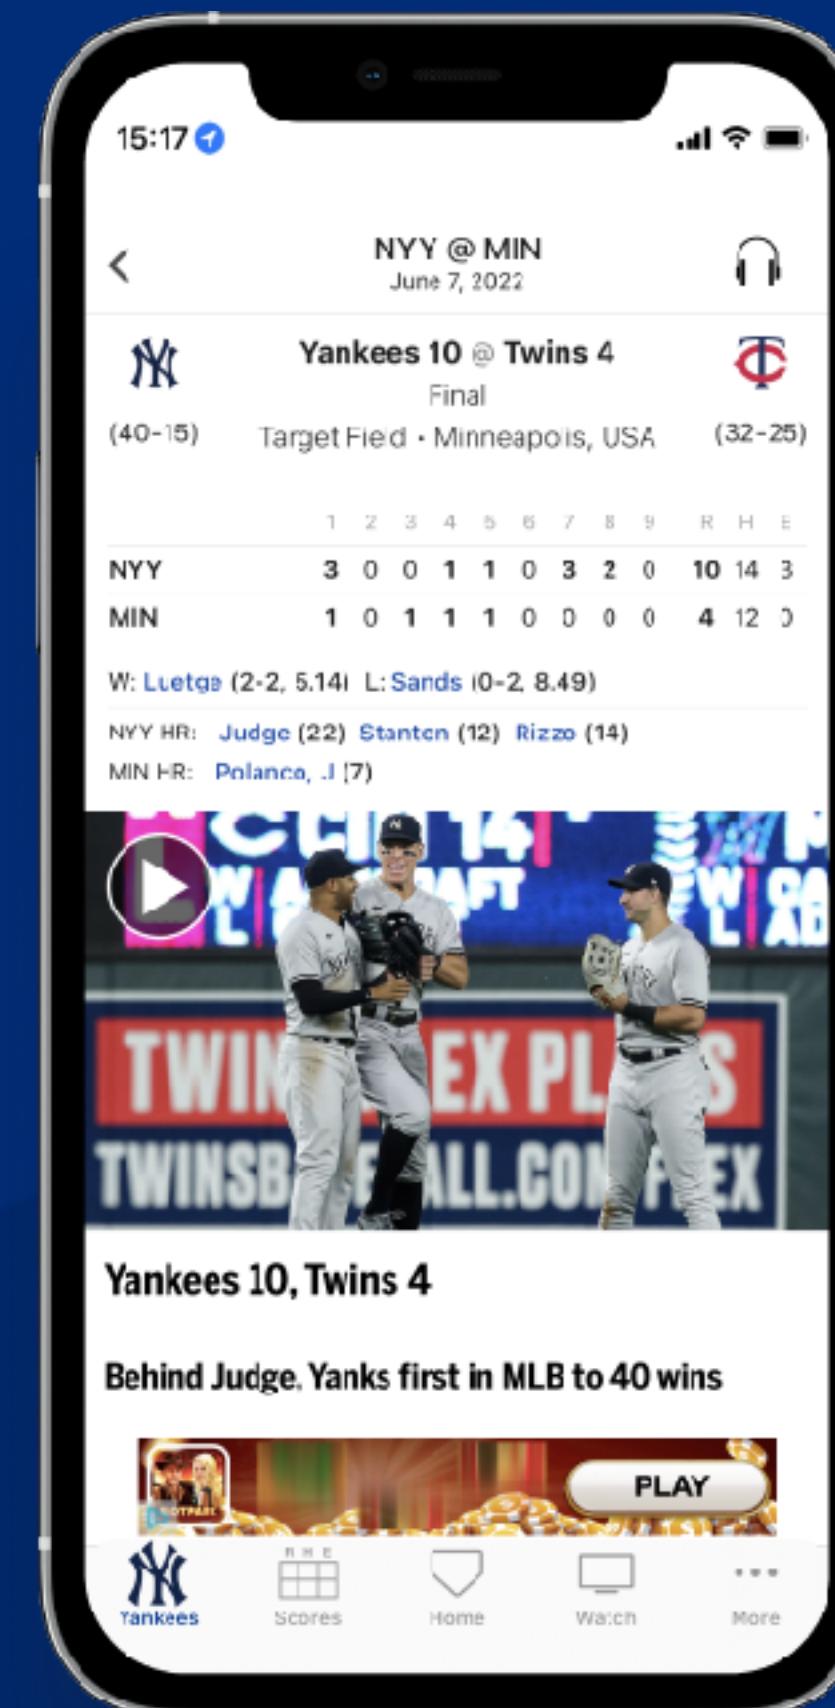

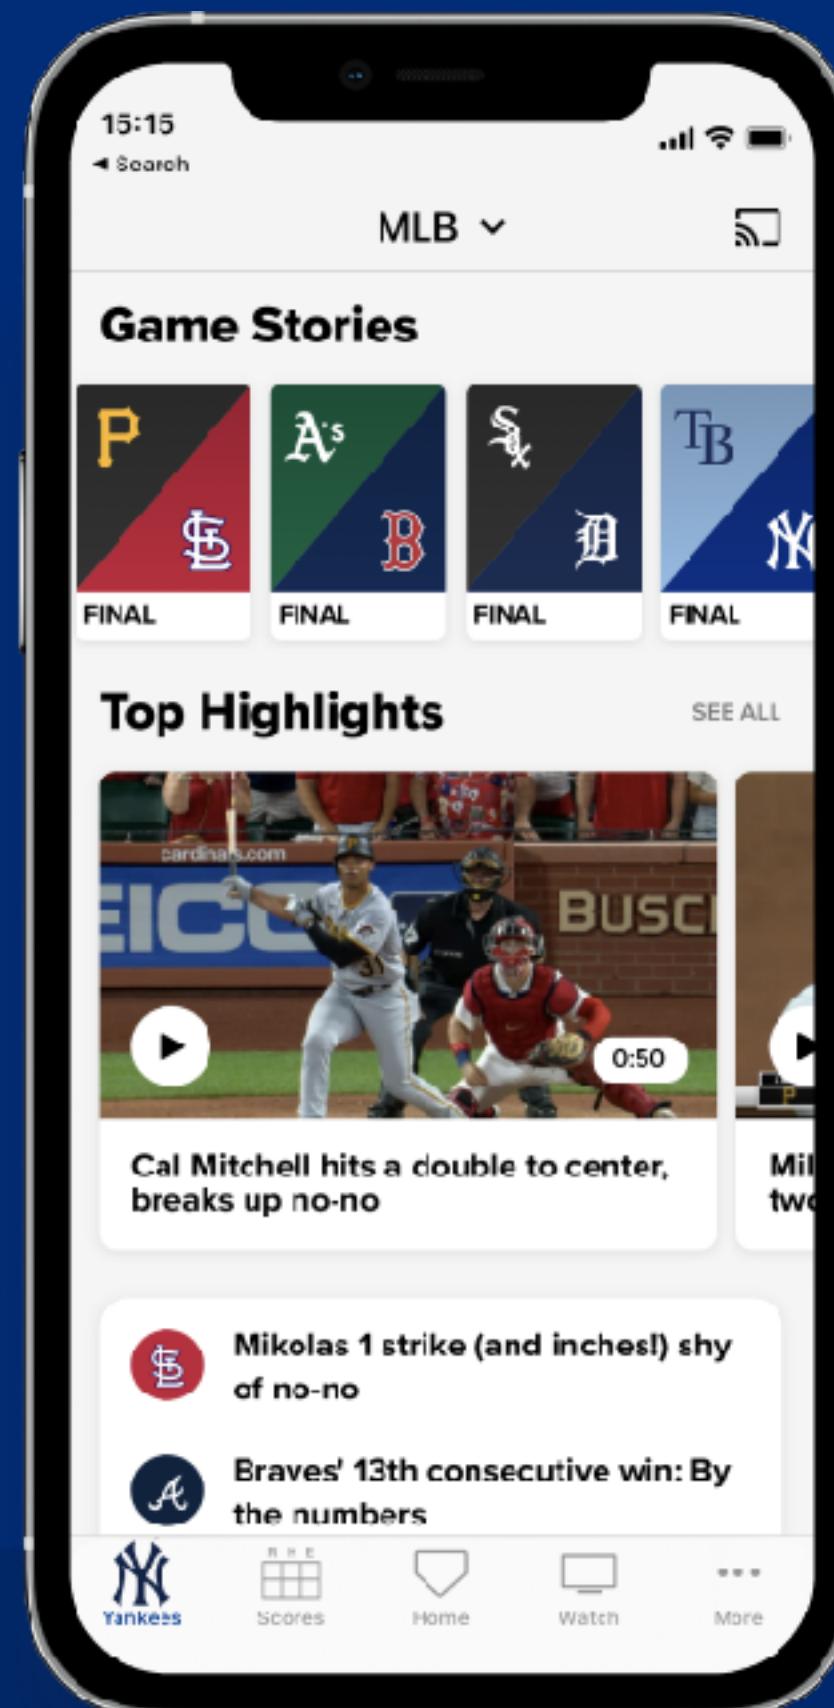

Services

- iOS & Android Development

Areas of focus

- Streaming
- News feed
- Platform maintenance

MLB

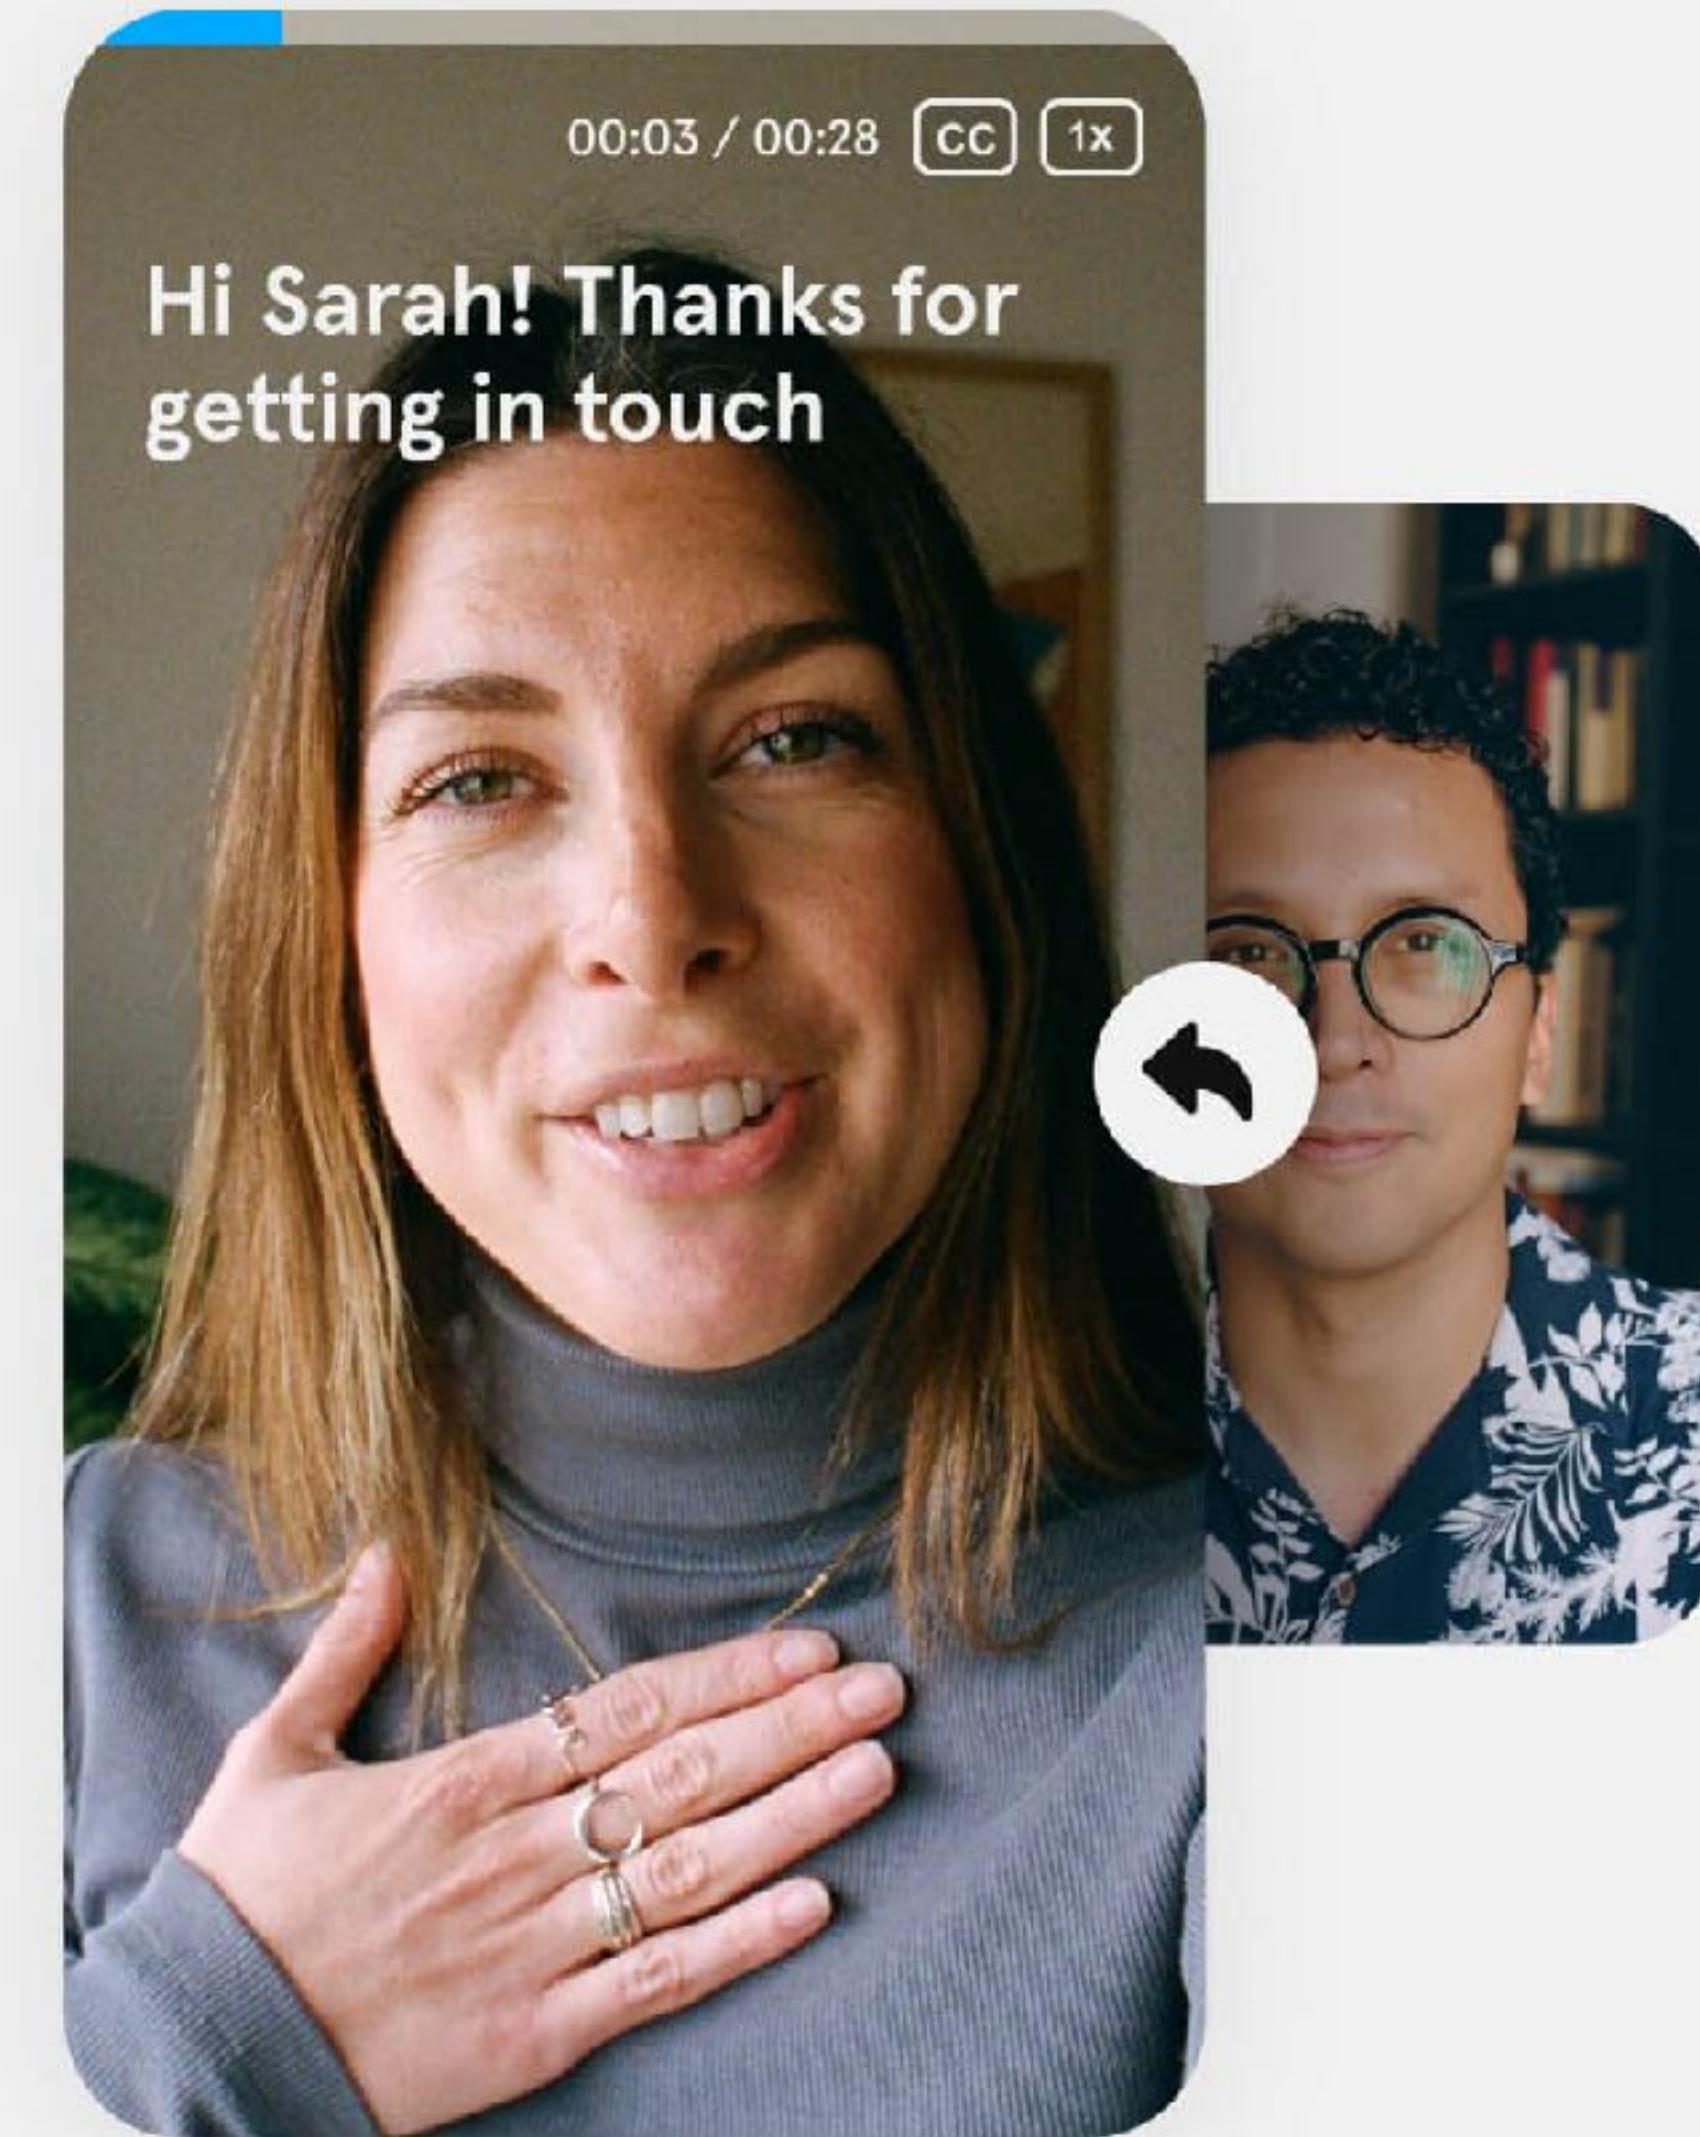

The Left Bit team really knows their stuff when it comes to mobile development. They stay on top of the latest developments, and always act with their customers' best interests in mind. They are easy to work with, and have always been able to deliver when I've worked with them.

I'd be thrilled to work with them again!

Dave Lewanda - Director of Software Engineering at MLB

VideoAsk

Business just got
more personal

by  Typeform

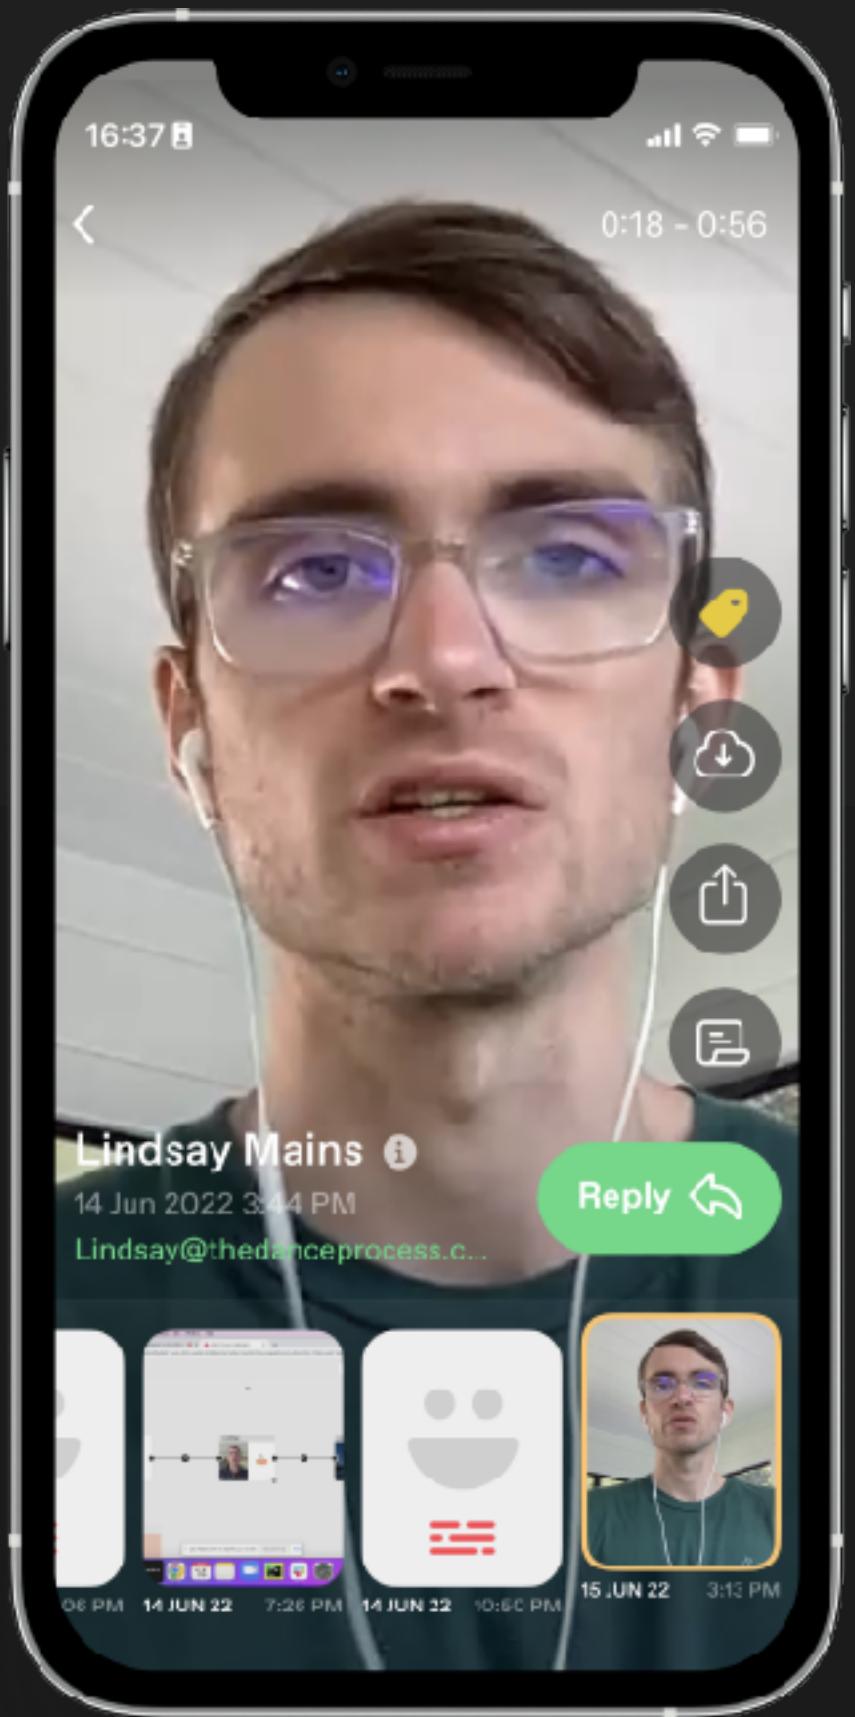

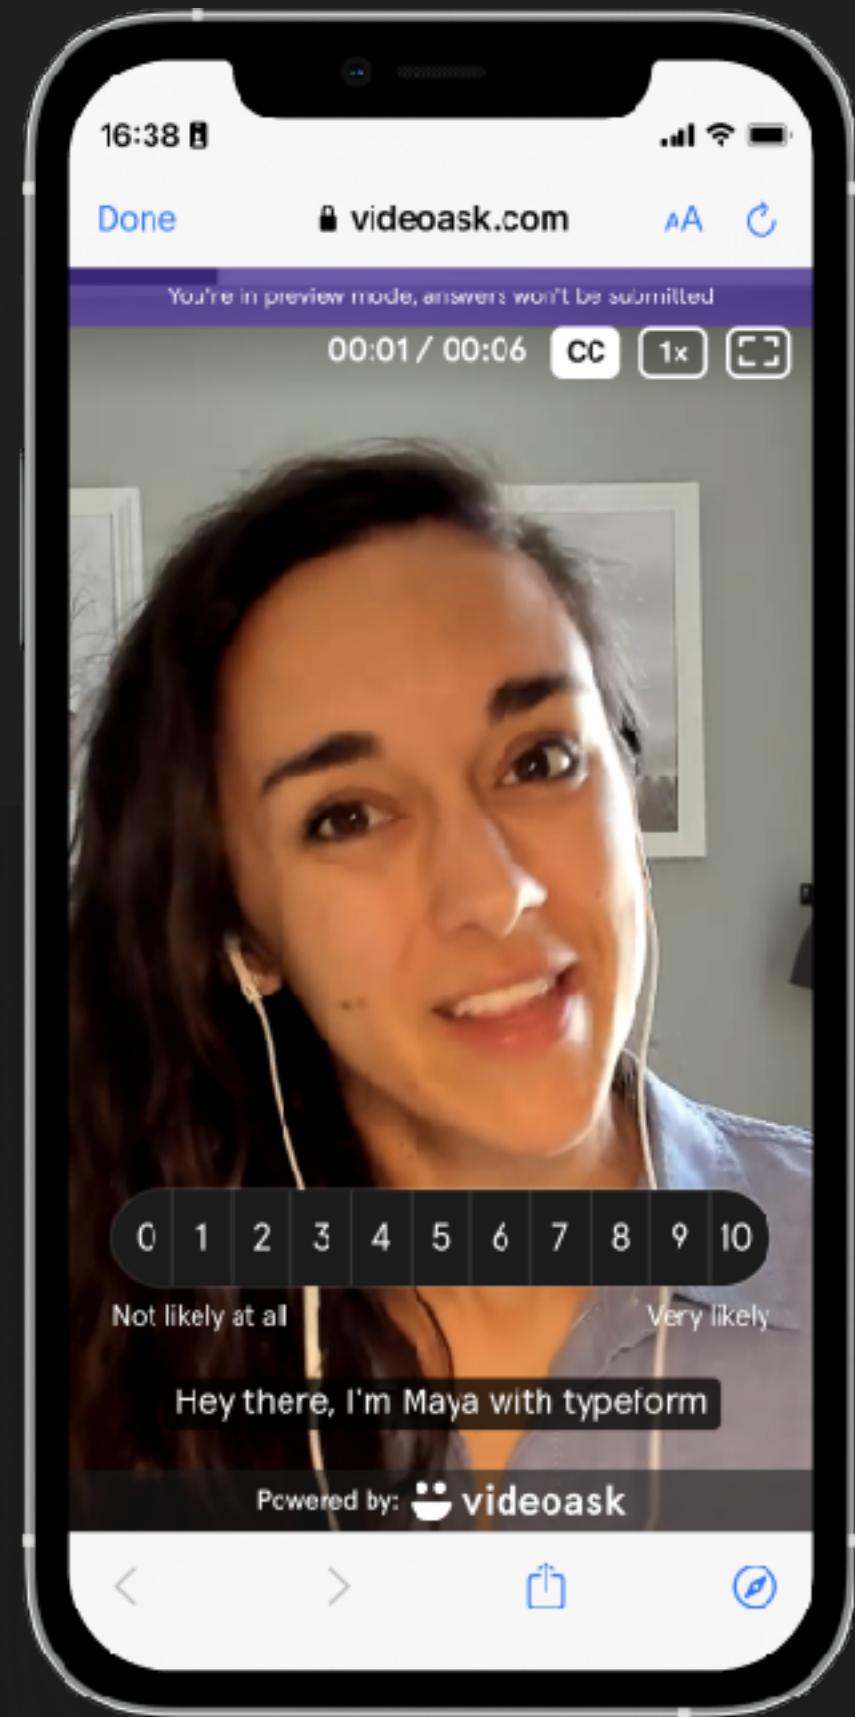

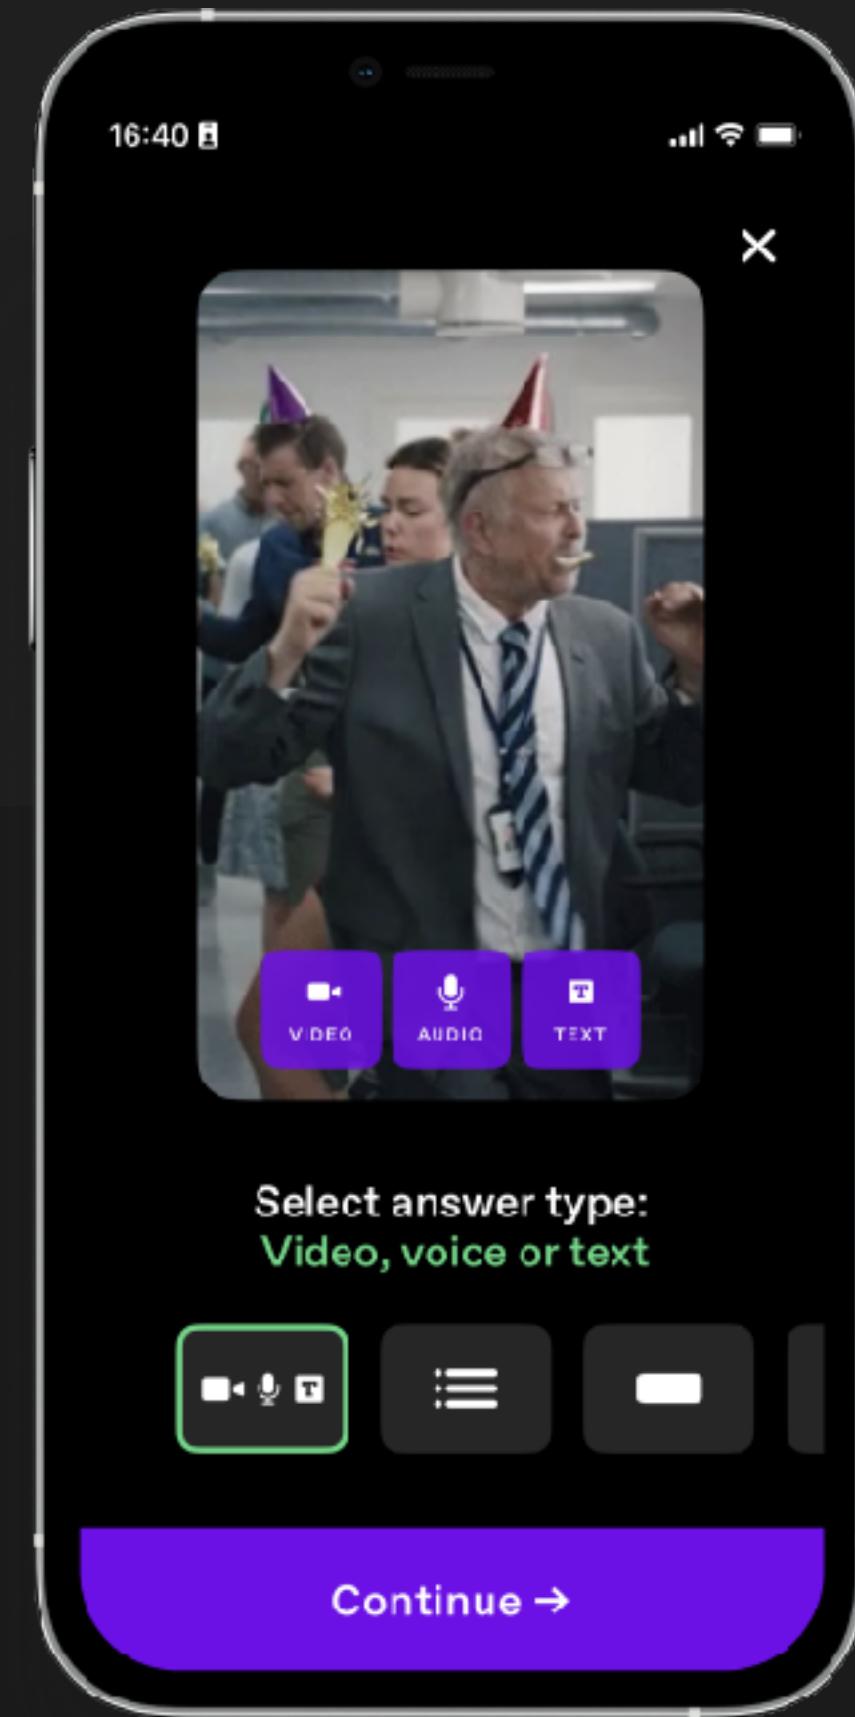

Description

Videoask is an experimental video platform that allows effortless creation of simple video/voice forms + distribution via a public link in order to collect video/audio responses & ensuing text transcriptions.

Services

- Digital product definition
- MVP Development (iOS & Backend)
- iOS maintenance

VideoAsk

I have had the pleasure of working working with TheLeftBit since the conception of VIDEOASK.

Their team not only helped us launch the app in a fraction of time, but was also involved during the evolution of it, bringing their mobile perspective into the development of the Product.

David Okuniev - Typeform Cofounder

Naturitas

The largest online store specialised in natural health

Description

Naturitas is an e-commerce specialised in natural medicine products, bio and eco food, natural cosmetics, food supplements and products for athletes.

Services

- Digital product definition
- iOS & Android Development
- UX Consultancy

Naturitas

TheLeftBit team has helped us create applications that have contributed, without a doubt, to the exponential growth that we have experienced at Naturitas.

The experience of working together with the TheLeftBit team is very satisfactory, since they take the product as their own and team up as if they were part of the company.

Rodrigo López - PMO at Naturitas

mediQuo

The exclusive app
for doctors and
health
professionals

Description

Mediquo is a digital platform that allow doctors and health professionals to manage consultations online for both their own patients as well as for the users of the app. This is in compliance with the European GDPR regulation at all times, thus reinforcing patient and doctor confidentiality

Services

- Digital product definition
- User experience design
- User Interface Design
- Brand design
- Code Consultancy
- Code base development

Areas of focus

- Mobile Apps
- Web

The image shows three smartphones demonstrating the mediQuo app's features:

- Left Phone (Mode activo):** Displays a purple screen with a bell icon and a calendar icon. The text "Añade tu horario de actividad" and "Personaliza tus horarios y gestiona las notificaciones de las consultas." A large blue "+" button is at the bottom.
- Middle Phone (Dashboard):** Shows the main menu with sections: Recibidos (1), No leídos (1), Sin seguimiento (6), Archivados (100), Agenda, Invitaciones, Contactos, Profesionales, Perfil (highlighted), and Facturación.
- Right Phone (Perfil - Dra. Laura Ventura):** Displays the profile of Dr. Laura Ventura. It includes:
 - Profile Card:** Picture of Dr. Laura Ventura, Email (lventura@clinicasventura.com), Phone (+34 634 337 203), and Gender (Mujer).
 - Overview Tab:** Shows professional information: Tratamiento (DR.), País de trabajo (España), Colegiatura (Si), and Descripción (Brief bio).
 - Connect with Patients:** A section to share a personal link or QR code.
 - QR Code:** A QR code for "SLVenturaRubic".

TheLeftBit is not only a service provider, but a true strategic partner. Their user-centric approach and ability to translate our ideas into functional digital products has helped us grow and remain competitive in the market.

Juan Cava Platas - CTO at mediQuo
